

SECTION 2 – SUPPLEMENT TO DENVER WATER ENGINEERING STANDARDS

CHAPTER 2 – MAIN EXTENSIONS

2.1. SECTION 2.03 – ENGINEERING STANDARDS TO APPLY

All water lines, appurtenances, and related public water system within the Southgate Water District shall be designed in accordance with these Specifications and the Denver Water Engineering Standards. Any deviation from these Specifications shall require the written approval of the District prior to design or construction. Design of all water system construction plans shall be performed under the direct supervision of a Professional Engineer, registered in the State of Colorado. The intent is to provide a consistently designed, long-term, reliable system which can be easily located and maintained by the District.

2.2. SECTION 2.05 – PLANS AND SPECIFICATIONS

Construction plans for water systems shall meet the guidelines set forth in the Denver Water Engineering Standards, the Water System Plan Requirements check list, and General Notes found in the Appendix. The Check List and General Notes are guidelines and, as such, some items may not be applicable to all projects as determined by the District.

Construction plans will be reviewed by the Southgate Water District and Denver Water for conformance with these specifications, the Denver Water Engineering Standards, and the Southgate Water District's Rules and Regulations.
